The objective of the course is to familiarize students with the terminology of the School of Environmental Engineering through scientific and authentic texts of specialized content as well as to improve students’ writing skills. The framework of thinking; coping and working in a German scientific environment is taught to completion. Special emphasis is given on listening comprehension, as well as speaking and writing skills in order to achieve further fluency in transnational communication.

The e-classroom, the electronic exercises on the Language Centre website along with the audiovisual material of autonomous learning are complementary to the course. Students have even the possibility to enroll in a speaking and writing practice course.
