Master of Science (M.Sc.) in Environmental Engineering

Scholarships with financial criteria

for the Postgraduate Students of the School of Environmental Engineering for the academic year 2020-2021

According to Law 4485/2017 and the Regulation of the M.Sc. Program, scholarships from tuition fees are provided with financial criteria, the number of which does not exceed thirty percent (30%) of the total number of students admitted to the M.Sc. Program. Therefore, for those subscribed in the academic year 2020-2021, the number of scholarships for the academic year 2020-2021 with financial criteria is:

30% X (number of active students) = 30% X 15 = 5 (five) scholarships

The application period for scholarships with financial criteria for postgraduate students of the School of Environmental Engineering will last from **Tuesday 27/10/2020** to **Friday 6/11/2020**.

For the financial criteria, the following supporting documents will be taken into account, which the postgraduate students who are interested in the scholarships of this category, should send them to the Secretariat of the School:

- Application Form
- Recent (2020) certificate of marital status.
- Copy of the settlement note of the competent Tax Office for the annual income and / or individual income (if they have the same income) of the student, for the financial year in which the application is submitted expressing his/her interest (**the document should be for the 2019 income**).
- SOLEMN DECLARATION. (Article 8 of Law 1599/1986) (A 75) of the interested party in which he declares:
 - a) place of residence (a document of a public authority or services or accounts of public benefit organizations is attached, from which the place of his permanent residence can be deduced),
 - b) if do have a brother/sister who is an undergraduate student, provided that he/she does not already held a Diploma, postgraduate or doctoral degree, who is studying at

a University or TEI (Technological Educational Institute) or in the supreme ecclesiastical academies or in the Higher School of Pedagogical & Technical Education (ASPETE) or in the Higher Schools of Tourism Education of the Ministry of Culture and Tourism,

c) if receive an unemployment benefit from the Labor Employment Organization (OAED), where he/she is registered, his/her parent or his/her spouse is registered, if he/she is married, regardless of age, or one of his/her parents if he is single under the age of 25, or his / her spouse if he / she is married,

d) if he/she has more than four children,

e) that he / she does not receive a scholarship for the Master of Science (M.Sc.) in Environmental Engineering from another source.
